How to Make Remote Working Work!

Remote work, where professionals work outside the traditional office environment, is on the rise. And for good reason! There's strong evidence that it benefits companies both financially and productively - providing you have the right tools at your disposal.

Benefits of Remote Working

1. Employees are Happier and More Productive!

Staying at home reduces stress levels and the lack of commute makes it easier to maintain a positive work-life balance. That doesn't mean productivity suffers however! In fact **91% of Remote Workers say they get more done at home than in the office.**

2. Reduces Cost

Employees based elsewhere? Great! Your overheads will drop significantly and your employees will save on their commute.

3. Boosts Profit

The Wall Street Journal found that companies that allowed remote working at least 3 times a month were more likely to report **revenue growth** across a 12 month period.

4. Attracts Talent

Remote working forms a key element of your business' emotional salary. Around 80% of U.S workers say they would turn down a job that didn't offer remote working! The bottom line: don't underestimate its sway on applicants during the recruitment process.

Choosing your Remote Working Tools

\$500 Donated to honor Veterans

In November, Kinetix provided a [Facebook](#) promotion that celebrated our veterans on Veterans Day. We offered to donate \$5 for anyone posting their service in the military or the service of a loved one. We are proud to say we had enough participation to raise \$500 that was donated to the Wounded Warrior Foundation! [Press Release](#)

We are honored to be chosen for a Canton Chamber People's Choice Award! [Press Release](#)
